

EXPRESSION SERIES (2021-22)

To celebrate the 75th year of India's independence, the CBSE Expression Series for the session 2021-22 was based on the theme India@75. The first Expression Series for the session was based on the sub-theme 'Charting India's Progress@75'.

Springdays CBSE School conducted the CBSE Expression Series from 30th June to 20th July. As a pioneer, a brainstorming session by the class teachers invoked the students to ponder on the topic and the virtual platform (MS Teams) helped the students to unfurl their talent in the form of an essay, poetry or painting. Enthusiastic student participation was witnessed across grades 3 to 12. The shining stars of Springdays CBSE School uploaded their ingenious work and the best from each category was selected across the level.

The theme and topic was so captivating that it not only motivated the participants to grab the opportunity but also gave them complete liberty to use their creativity.

In a nut shell, the students carved their interest and depicted their views in the form of penning poems, essays and splashing colours along the theme India @75 on the following topics:

<u>Grades 3 to 5:</u>	<p>What do I want to do for my Locality or the Place where I live (Or) The Things I Love about my Country</p>
<u>Grades 6 to 8:</u>	<p>The achievements of India in the field of science and technology (Or) How would I contribute to the development of my country.</p>
<u>Grades 9 & 10:</u>	<p>Progress of Indian Education Sector after independence (Or) Importance of Green Revolution in India's Economic Development</p>
<u>Grades 11 & 12:</u>	<p>India: Challenges Ahead in Becoming Super Power (Or) Indian Democracy: A Role Model of 'Unity in Diversity' for the World</p>

The activity was well conceived, conceptualised and completed within the time allotted strictly adhering to the given instructions. The students actively participated in the competition with zeal, patriotism and wholehearted involvement. Students remembered our Scientists, Army personnel, doctors etc. who have contributed their selfless and commendable work in their respective fields. Their work highlighted their pride and patriotism. Overall, the CBSE Expression Series elicited the responsibilities and involvement of the students in building a stronger nation.

The participants were happy to note the chosen best entries – level wise and category wise:

GRADES	ESSAY	POETRY	PAINTING
3 TO 5	Kavya Kapoor	Huda Tasneem Irshad	Orvin Regan
6 TO 8	Tanvi Rebecca Daniel	Esther Susan George	S. Niharika
9 & 10	Nabeeha Tasneem Irshad	Kanmani	Diya Selvakumar
11 & 12	Chandrabindu	Naveen Prasad	S. Kavya Varshini

PROGRESS OF INDIAN EDUCATION SECTOR AFTER INDEPENDENCE
 "Education is the most powerful weapon that you can use to change the world."
 Education provides you the tools to improve the quality of life in modern society economically and sociologically. So, lets dive into how this pivotal aspect developed in post-independence India.

The things I love about my country - A poem
 I love my country. I love everything about you.
 It's a land where we worship the gifts of nature.
 The trees, mountains, oceans and weather.
 The festivals and celebrations throughout the year.
 Making friends and family to cheer.
 I love the simplicity of it, positive words.
 "Swag, pesticide 'oil' and 'shoes'".
 I love the variety India carries in language, folklore and culture.
 I love India for inventing number zero.
 Which when placed after a digit becomes a "hero".
 How to our freedom fighters, India Atropilaxay and air force.
 I love the freedom I enjoy.
 It's good to see my India going high up.
 When players like Saini Nehru kick up.
 I love to read about India's space mission.
 With "Mangalyaan" reaching its destination.
 How can I forget to mention
 Children's Day, a festival for all the children in India.
 With its amazing reputation.
 It's the true spirit of being an Indian.
 I salute my motherland INDIA - JAI HIND

Essay By - Tansi Daniel
 How can I contribute to the development of my country?
 This was the question posed by CBSE for the Expression series 2020. In a country with the world's 2nd largest population of over 1.3 Billion, the contributions of an 5th grade student worth "increase India's GDP or lower India's ranking on the global hunger index but as Vincent Van Gogh once said, "Great things are done by a series of small things brought together".
 In 2019, WHO ranked India as the 5th most polluted country. The World Air Quality Report also mentions that 22 of the top 30 most polluted cities globally are in India. Simple actions like throwing garbage in the bin and reducing the use of plastic can make a huge difference. Planting trees, use eco-friendly materials, use public transport. There is so much that can be done for this cause.
 Another way to contribute is to be better neighbours. This may seem pointless but being good neighbours gives us a sense of community. Small gestures like grocery shopping for elderly neighbours makes your surroundings a better place to live in.
 One more way to contribute to the development of India is to raise money for charity. India is a developing country and although the economy is growing, the poverty rate makes this present. Around 84 million Indians live in extreme poverty. India ranks 94th among 107 countries

POST-1947, EDUCATION FOR WOMEN
 Seeking a ray of light through darkness,
 When the entire nation was in madness, For freedom
 Women were prisoned in the four walls that yet still called Home
 Waiting for someone with a delighted message to come.
 From the special year of 1947 to the year 2047,
 Women are showing progress
 Day by day, Family by Family something's change to the vicinity
 After a long walk of freedom, Women who were
 scared, feared and even wished for this Golden stone called
 Education
 Now enjoy, utilize and succeed with it.
 A new Government, with entirely different laws,
 was that ray of hope
 that helped them to propel with cope
 Evil came across their ways
 But Fairy cleaned them away
 It is a torch that has no end
 Brightening all through the trend.

THE THINGS I LOVE ABOUT MY COUNTRY
 A treasury of culture and tradition,
 India, with top recognition.
 Every bead is bound in a string,
 Hindustani is the cultivation king.
 She is teaching art and dance,
 The government programmes are advanced.
 Ek Kadam Swachhata Ki Aar,
 Is truly an advancement door.
 'Atithi Devo Bhava' means guest is God,
 Can't be found in China and Bangkok.

Development of my country
 Amateur as I am
 But with a zeal to see my country develop
 To initiate in a small way to end littering.
 To safeguard our nature.
 In every street and town
 Empty bottles and wrappers are found
 Every now and then people pass by
 And not a single soul helped, but why
 People being lazy and careless
 Not knowing the consequence
 Throws bags and plastic tins
 Onto the ground and not into the bins
